EXPERIMENT 5 – REPORTS, DASHBOARDS, AND UI BUILDER

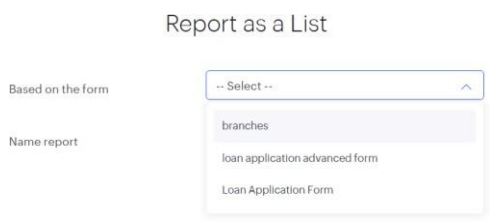

AIM:

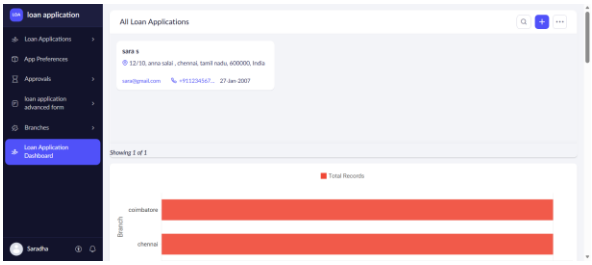

To create reports, charts, a gauge, search functionality, and an embedded form using Zoho Creator Page Builder.

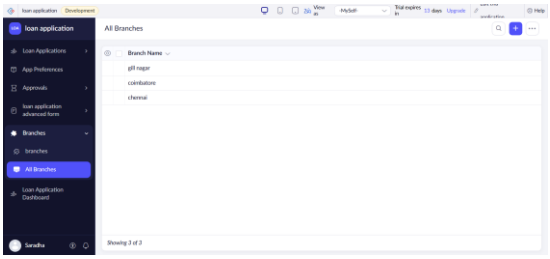

PROCEDURE:

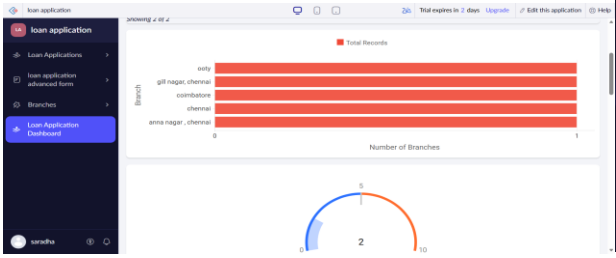

1. Open the Loan Application app in Zoho Creator.
2. Create a report to display loan application records.
3. Create a bar chart using the Branches form.
4. Add a gauge to display the count of loan application records against a target.
5. Add a search element connected to the All Loan Applications report.
6. Embed the Loan Application Form into the dashboard.
7. Save the dashboard and verify the added elements.
